DULL TIMES ADVERTISING.

The best ousiness lever is advertising newspaper advertising is the longest lever and the quickest to move trade. Dull Times Are the times to put forth the greatest effort and the most money. People don't usually ask

For What they have already. Advertising is merely ASKING FOR TRADE

When the store is full every day, cut down your space. Don't expect that you will get a big trade in dull thues, but keep count and you'll find that the advertising was profitable. Profitable

Hight at the time and enormously profitable after a while. The very fact that only a few merchants are who enough to advertise in dull seasons, makes it all the more profitable for those who do. You are there when others are not. It gives you greater prominence. It will make your advertising in busy times much more Effective.

Common sense has a great deal to do with advertising. Think about it from a Common-sense Standpoint. It may take some merve to pay out money for newspaper space when the business isn't paying expenses

it Will Pay. More than half the business houses # the country would be ahead if they could shut up for three months in the summer. But they don't do it.

Simply because they can't afford to. Peo-ple would forget them. Same way with advertising. Think of it.
